The Deceuninck logo consists of a blue square with the word "deceuninck" in white lowercase letters. Below the square is a small horizontal bar with the colors of the Belgian flag (black, red, yellow) and the word "BELGIUM" in white uppercase letters.

deceuninck

BELGIUM

A woman with long dark hair, wearing a light-colored blazer, is sitting on a blue armchair at a small round table. She is looking down at a book or tablet. The table is next to a large floor-to-ceiling window that offers a view of a modern building and lush greenery. A large potted plant with bright yellow flowers is on the table. The room has a bright, airy feel with natural light coming from the window.

deceuninck

91 COUNTRIES, 14 MANUFACTURING PLANTS, 22 WAREHOUSES

Deceuninck was established in Belgium in 1937. As a true specialist in compound technology, design, development, extrusion, finishing and recycling for the construction industry, Deceuninck is among the top 3 PVC Window and Door profile manufacturers in the world. Continually developing innovative products through a strong R&D discipline, Deceuninck's team of professional specialists develop innovative products delivered to satisfied customers across the globe. Deceuninck offers a wide range of energy-efficient, low maintenance, colour-fast and long-lasting high performing windows for your home. Deceuninck in India is one of the fastest growing UPVC Profile company with more than 40 authorized and certified channel partners making high quality UPVC Doors and Windows.

CASEMENT WINDOW & DOOR

Complete casement solution for your home, office or commercial project available in 60mm & 70mm series. Round edged profiles gives a heritage feel to the entire system. With 5 chambers, our casement windows excellent thermal and acoustic performances and can accommodate glass thickness upto 44mm. Having a U_f of 1.3W/m²K makes our windows & doors a value proposition for Green Buildings, Hotels, commercial offices as well as homes. Deceuninck's upgraded casement system provides added security with inbuilt grill & bug screen known as Modular Mesh System. Our latest offering to the market is the Flush Sash available in 60mm. The sash has slimline slightness and sit flush within the frames blending seamlessly with your desired aesthetic.

deceuninck **BELGIUM****LEGEND CASEMENT**

Legend Casement system is perfectly designed using the state of the art 6 chambers technology and 80mm profile, where you can benefit from great energy savings and substantially reduce heating cost compared to standard windows. It offers excellent sound insulation up to 49dB and very good thermal insulation values. The U_f value of Legend system has been measured as $0.92W/m^2K$. With the right combination of glass, U_w can be less than $1w/m^2k$ which is useful for passive houses. As the Legend casement can accommodate glass thickness up to 52mm, it's the ideal choice for Passive Housing. A first of its kind system which is suitable for doors, shop fronts and inside opening as well as Tilt and Turn Windows.

**SLIDERS**

Deceuninck Sliding systems were designed to reflect the desire to escape the mundane, to fulfil the desire to live closer to nature, in an al-fresco ambience, opening wider spaces, and free thinking in architectonic designs maintaining the integrity of the system. Multi chambers offers excellent performance in the harshest Indian weather conditions. The sash profiles comes with pre-inserted TPE gaskets and weather strips from the factory, making the production 30% faster than conventional uPVC profiles available in the market with EPDM gaskets.

LIFT & SLIDE

Let your angle of vision become wider, bring your outside to your indoor areas by adding the HS-76 Lift and Slide to your balconies and gardens. Deceuninck Lift & Slide is known as Limitless system and it offers significant advantages over conventional sliding doors. Specially designed for large openings for balconies and living rooms to give wide view of your outdoor. Internal glazing options from 6mm to 44mm.

SHIFT & SLIDE

Innovation meets ergonomic design to create the new Shift & Slide systems aka the Legend Slide. A unique shift and slide system which offers maximum view with maximum performance. The aesthetic design and user friendliness are the most prominent characteristics of the Legend Slide system that offers high level protection against the winter cold and summer heat. The Legend Slide system gives excellent advantage to spaces with its high performance, powerful insulation and ease of use. It has a wing structure of 149mm with 6 chambers and can hold glazing up to 52mm thickness.

SLIDE & FOLD

These elegant swing doors adds a 'surprise' element to any home space or compound and seamlessly connects its interiors with its exterior. Once folded, this door system creates a large opening facilitating access. Folding doors are becoming more popular with each passing day with property developers to differentiate houses. Slide & Fold systems are available various opening combinations and glazing options. They are compatible with different options of hardware – Top mounted or bottom mounted and is best suited for gardens, pools or terraces with uninterrupted views and access

SLIDE & SWING

This is a state of the art multi panel door which allows owners to optimize their living spaces. It operates on a unique system which has shutters sliding in each direction & swinging open to provide a panoramic view of the outdoors without any obstruction. Once stacked, this door system creates a large opening to homogenously integrate the interiors with the outside and can be installed to the maximum height specified. There is no limitation to the number of panels as they are not connected and move individually. A first of it's kind, multi-fold system.
